## **Shift Launched Effects** Multi-Mission Aircraft System

### The Next Step in Expeditionary Launched Effects

SNC's Launched Effects (LE) Aircraft System, is designed for precision penetration of enemy defenses for a low-risk, low-cost, high-value solution for suppression and defeat of advanced threats together with Precision Fires and Intelligence, Surveillance & Reconnaissance (ISR) missions.

### Launched Effects Multi-Mission Aircraft System

#### OVERVIEW

SNC's LE Aircraft System is extremely adaptable and has been launched hundreds of times from a variety of fixedand rotary-wing aircraft with a variety of mission payloads.

- · Low RCS and Observable Signatures: Visual & Acoustic
- Below-Cloud-Deck ISR
- Long Range Penetration of Denied Areas
- Multi-Modal Collection at Inaudible Altitudes
- Quick Reaction SUAS Delivery at Point/Time-of-Need
- Increase Host Aircraft Standoff
- Delivery of Battlefield Effects
- Pursuit of Multiple Diverging Targets
- · Electronic Attack and Cyber Effects Delivery
- Mission Recon/Overwatch/BDA
- Mission Control Software: Tablet-Based, Cross Platform (Linux, Android, Windows)

# MISSION CAPABILITIES

- Tailless, unfolding flying-wing configuration
- 2 Composite folding airframe
- \delta Wing Span: ~13 ft
- Quiet electric propulsion

35 kts

Cruise Speed

- Beyond Line of Site (BLOS) datalink for extended reach deep into forward areas
- Electronic Attack and Cyber Effects Delivery; Mission recon/overwatch/BDA
- Ø Multi-Modal collection at inaudible altitudes
- Internal antenna provisions in multiple locations
- Secure RF LOS digital datalink from aircraft to host aircraft & control station: LPI/LPD & mesh network tested

70+ kts

**Dash Speed** 

04 Deployment Complete
