

SNC[®]

X-Edge[™]

Revolutionizing Battlefield Connectivity with AI, Flexibility & Precision

X-Edge is SNC's next-generation, JITC-certified JADC2 solution, connecting battlefield players through AI/ML, advanced tactical networking and the OMNI operating model. Trusted by over 100,000 users, it builds on eight years of SNC TRAX[®] software success, offering improved user experience, performance and flexibility. Rapidly customizable, X-Edge ensures cost efficiency with advanced features like bi-directional coded waveforms, an enhanced interface and edge computing, setting a new standard for integrated command and control.

X-Edge

Revolutionizing Battlefield Connectivity with AI, Flexibility & Precision

X-Edge provides a secure data integration layer at strategic, operational, and tactical levels. It offers an integrated all-domain common operating system, connecting any system, weapon, or protocol for full command and control (C2) battlefield capabilities. Leveraging MIL-STD and commercial open-based standards, X-Edge enables a command center directly to the edge. The user-friendly interface requires minimal training and no additional hardware. Trusted by operators and decision makers worldwide, X-Edge features advancements in user experience, performance, and flexibility, including a sleek browser-based interface, enhanced network visualization, GraphQL API support, chat integrations, and decoupled capabilities for tailored solutions.

TECHNICAL SPECIFICATIONS

X-Edge is a customizable solution, enabling customers to pay only for what they need with immediate access to 65+ simultaneous connections for full JADC2 operations. It provides real-time tactical integration across multiple domains and platforms, aiding strategic decision making and operations. X-Edge connects any radar, weapon, sensor, and network with IoT-style integration. Contact us to get started on tailoring the right model below for your mission needs.

BRONZE	SILVER	GOLD
10 Connections <i>Includes L16, SADL, JREAP A/C, VMF, OMNI, API</i>	30 Connections <i>Includes Bronze + REC, ADSB, AIS, ISA, KAFKA, KLV</i>	45+ Connections <i>Includes Silver + ASTERIX, CMF, DDS, JREAP-A, TACSMS</i>
Helpdesk Support Level 1 & 2 Support Online Portal	Helpdesk Support Level 1, 2 & 3 Support Online Portal	24/7 Helpdesk Hotline FSR Support Online Portal
Real-Time Tasking & 3D Situational Awareness	Real-Time Tasking & 3D Situational Awareness	Real-Time Tasking & 3D Situational Awareness

Options to Add On TAC SMS, Radio Controllers, Audio (VOIP/Server), Video, Net-Enabled Effectors, Fires, ISR, Intel Lakehouse, Force Protection, Functional C2

BENEFITS

- Next-Gen AI & Security**
Modernized architecture and automapping with strong security tools.
- Battle-Proven Reliability**
100,000+ users across the globe ensuring operational use and trust in the most austere environments.
- Unmatched Interoperability**
Compliant to MIL-STD and open standard APIs to operate with any 3rd party system while enforcing cybersecurity standards.
- Improved User Experience**
Sleek, modern browser-based interface with enhanced visualization, customized dashboards, and Graph QL API support.
- Decoupled Capabilities**
Minimizes compute and storage needs, maximizing performance. X-Edge is designed to enable JADC2 operations with real-time mission capabilities.
- Cloud Services & SaaS**
Simplifies installation and keeps the system up to date.
