MAAWLR

MAAWLR (Mobile Anti-Air Weapons Launcher – Reconfigurable) is part of SNC's Rapidly Deployable Air Defense and C-UxS Family of Systems. MAAWLR integrates commercially available subsystem components with military-grade sensors, communications, and effectors into a hybrid, open architecture, and rapidly reconfigurable expeditionary area air defense system. MAAWLR is designed to adapt and evolve in dynamic and unpredictable operational environments with hyper-flexible hardware, software, communications, and data interfaces. MAAWLR can independently Detect, Track, Identify, and Defeat airborne threats, or augment existing systems with expanded range and kinetic effects.
