End of Sale and End of Support Announcement for SNC TRAX Version 2

As part of our ongoing commitment to advancing our technology and addressing critical security and cyber vulnerabilities, SNC is announcing the end-of-sale and end-of-life dates for SNC TRAX version v2.0 (part number 03331101).

- The SNC TRAX v2 Software is available for orders until 31 December 2025.
- Please refer to Table 1 for detailed end-of-sale and end-of-life milestone dates for the affected products.
- Table 2 provides a list of the affected product and part numbers along with the recommended replacements.

Table 1: End-of-Life Milestones and Dates

Milestone	Definition	Date
End-of-Life Announcement	The date this end-of-sale and end-of-life document is first published.	15 June 2025
End-of-Sale	The last date to place a purchase order for the product. The product is no longer available for sale after this date.	31 December 2025
End of New Software Feature Support	The last date SNC may provide a software release with new feature(s). After this date, SNC will no longer develop, test, and deploy software with any new feature. Software security patches and bug fixes will continue to be supported through the end-of-life date.	31 December 2026
End-of-Life	The last date to receive software security patches, and bug fixes for this product. After this date, SNC will no longer develop, test, and deploy software with security and/or bug fixes. All service support for this product is no longer available after this date.	31 December 2027

TRAX Version 2 Annual Support	03332101	SNC TRAX® TRAX EDGE Annual Support	TBA

Building on the success of earlier TRAX versions, TRAX Edge introduces an entirely new approach to managing data and visualizing dashboards, seamlessly connecting the most critical data from the edge to the decision-maker and the effector. TRAX Edge offers customizable dashboards, advanced capabilities, and specialized packages that elevate data management to unprecedented levels. Unlike traditional one-size-fits-all products, TRAX Edge is tailored to provide efficient processing and data management solutions, regardless of deployment scope. Whether it involves the smallest edge device, overseeing an entire area of operations, or managing data in space, TRAX Edge is designed to future-proof your requirements and meet next-generation AI, security, and data-centric mission needs.

TRAX Edge brings a new modernized architecture with strong embedded enterprise code security tools to ensure consistent resource allocation and enhanced security measures. As SNC is committed to meeting CMMC compliance, TRAX Edge is designed with the benefits of CMMC including safeguarding sensitive information to protect the warfighter, enforcing cybersecurity standards to address evolving threats, ensuring accountability with minimal compliance barriers, fostering a collaborative cybersecurity culture, and maintaining public trust through high professional and ethical standards.

We understand the importance of seamless transition and continued support for our customers. We appreciate your continued trust in SNC and are committed to supporting your mission-critical operations with our advanced and secure solutions. SNC is committed to making current customers transition to TRAX Edge seamless. The replacement product, SNC TRAX Edge will be available for sale in Q4 CY25 bringing all current capabilities TRAX brings and more. TRAX Edge will be purchasable through our GSA IDIQ, Tradewinds marketplace, and through commercial sales avenues.

SNC is excited to continue its legacy of transforming JADC2 from a challenge to a competitive advantage. If you have any technical, contractual or programmatic inquiries related to this notification, please submit a Customer Support Request via the TRAX Customer Portal, trax.sncorp.com.

Thank you for your continued support.

The SNC TRAX Team
